

KS2 LOAN BOX

Create a display, inspire discussion, use interactive activities, games and get hands on with artefacts to spark your children's' curiosity about the world's oceans and the animals that live within them.

The Deep Teachers have created a Loan box with a wealth of resources that can be used as a carousel of activities for your whole class, as small group sessions, independent learning opportunities or as a hook to engage your children in discussion.

Children get hands on and creative investigating a range of artefacts and our actual shark eggs to learn about these amazing creatures. Use our interactive Sounds under the sea pack to explore under the ocean.

Investigate using a range of resources the animals who reside at The Deep and their habitats within the ocean by using our Information Guides, Non-fiction texts, Creature Information Cards, Posters and Infographics. Up level your knowledge, explore animal adaptation and consider how information can be created to engage different audiences.

Use our games and ready-made activities to understand Classification, Climate Change, label the world's continents and oceans and investigate food webs.
